

# Fire and Bone, Oracles and Seers

With Sarah Finlay and Peter Clark

**April 13, 2014**  
**Keswick Ridge, NB**  
**\$150**

The art of divining – seeing beyond the obvious paths and potentials to bring new possibilities back into our ordinary lives – is an age-old, world wide shamanic practice. In this experiential workshop, we will help you broaden your perspective by connecting to Divine Source and the realms of Infinite Potential. Learning to interpret these connections will help you convey the wisdom back into our linear, physical world. We will introduce and practice a broad selection of techniques, each designed in its own special way to encourage a compassionate opening and understanding of previously hidden pathways.

When we merge with one of our helping spirits, we bring into our physical and spirit bodies the power and insight of compassionate wisdom. This is the essence of *entering* a divining state - a level of awareness outside the small mind, outside ego judgments, a state of rapture, beyond the edges of normal consciousness. The *culmination* is the return of this perception to our ordinary awareness with an interpretation that meshes with and enlivens our initial questions with new divine perspectives.

**Prerequisite: Shamanic Journey experience in the Upper and Lower worlds**

Sarah Finlay and Peter Clark of Shaman's Flame, share a core shamanic healing, counseling, and teaching practice. For more information, visit [www.shamansflame.com](http://www.shamansflame.com)
